Sinclair's blatant misuse of public airways to promote Bush prior to the election is CRIMINAL.

Their license should be revoked OR equal time given to an alternative view (Going Upriver) during prime time the following evening.

This shameful pandering is indicative of the shredding of our public freedoms in favor of media conglomerates with access to pimps like George W. Bush willing to sell off public resources to the highest bidder - regardless of moral claims of hypocrites like G. W. Bush.

Shame on Sinclair, shame on the FCC if you don't take decisive action. Please help stop this hemorrhaging of our public's right to fair media broadcasting.
